

*Romanian Society for Endocrinology*

***Dear colleagues,***

the 7<sup>th</sup> **EUGOGO Graves Orbitopathy Teaching Course** will be organized this year in Timisoara / ROMANIA, between September 27 – 28, 2013.

The course comprises lectures, plenary conferences, round tables and practical demonstrations with patients-

The speakers are represented by famous endocrinologists from Europe. The participants are represented by residents and specialists of Endocrinology and Ophthalmology.

The participation fee is **200 €** (Book, meals, bag and get together party).

*Welcome in Timisoara!*

Prof. Dr. med Ioana ZOSIN

**First past President of the Romanian Society  
for Endocrinology**

Timisoara, February, 2013

**7<sup>th</sup> EUGOGO GRAVES' ORBITOPATHY TEACHING COURSE**  
**TIMISOARA, ROMANIA, September 27-28, 2013**  
**DRAFT PROGRAM**

**Friday September 27<sup>th</sup>, 2013**

08h00-08h15: Registration

**08h15-08h30: Welcome address: Zosin, Perros**

**08h30-10h10; First session:**

**Pathogenesis and Diagnosis of GO (Chair: Perros & Zosin)**

08h30-08h50: Pathogenesis (Orgiazzi)

08h50-09h10: Epidemiology, risk factors and prevention (Daumerie)

09h10-09h30: Clinical activity and severity (Boschi)

09h30-09h50: Assessment of eye muscle motility (Curro)

09h50-10h10: Differential diagnosis of GO and imaging (Pitz)

10h10-10h30: Break

**10h30-12h30; Second session:**

**Management of GO (Chair: Wiersinga & Krassas)**

10h30-10h50: Medical management (Perros)

10h50-11h10: Surgical management (Baldeschi)

11h10-12h30: Case scenario with argument and counterargument

- 11h10-11h30: Thyroid management: medical vs. definitive (surgery & RAI) treatment (Lazarus vs. Marcocci)
- 11h30-11h50: Steroids for GO: efficacy and morbidity (Kahaly)
- 11h50-12h10: Role of radiotherapy and novel immunosuppressant drugs (Bartalena vs. Salvi)
- 12h10-12h30: Decompression surgery (Lane)

**12h30-13h00: Multidisciplinary round table discussion (Chair: Salvi)**

(Wiersinga, Zosin, Dickinson, Boborides)

Includes 3-4 slide presentations by participants (both Eugogo and hosting specialists) on predefined topics to be discussed one by one

13h00-14h00: Lunch break

**14h00-16h30; Third session: Grand rounds**

Live demonstrations with five patients (30 min. per patient)

16h30-17h00: Break

**17h00-19h00; Fourth session: Grand rounds**

Live demonstrations with four patients

19h00-21h00: Get together

**Saturday, Sept. 28<sup>th</sup>**

---

**08h00-10h00; Fifth session:**

Slide and **video-presentations** on surgical orbital procedures for small groups, rotation every 30 minutes

- How to investigate a patient with GO (Boborides)
- Decompression surgery and orbital fat removal (Von Arx)
- Squint surgery (Eckstein)
- Lid surgery (Dickinson)

10h00-10h30: Break

**10h30-11h00; Sixth Session**

**Index case patient:** 5-10 minute slide presentation (Zosin), subsequently discussion of the index case within four separate groups (25-30 attendees) coached by two ophthalmologists and two endocrinologists of the Eugogo group

**11h00-12h00; Session Seven**

**Interactive** four **case presentations** (15 min. each) run by Romanian colleagues and coached by a Eugogo member moderating the session.  
5-6 small groups with 15-20 participants.

12h00-12h30

**Summary and Feedback** from the audience: Perros, Zosin

12h30: Farewell

---

<b>EUGOGO Teachers</b>
------------------------

- **Endocrinologists**

- 1) Perros
- 2) Salvi
- 3) Bartalena
- 4) Marcocci
- 5) Orgiazzi
- 6) Lazarus
- 7) Krassas
- 8) Daumerie
- 9) Wiersinga
- 10) Kahaly

- **Ophthalmologists**

- 1) Dickinson
- 2) Lane
- 3) Morris
- 4) Baldeschi
- 5) Boschi
- 6) Boborides
- 7) Von Arx
- 8) Curro
- 9) Eckstein
- 10) Pitz
